RESULTS

SRK Transport was founded in 2014.

SRK transport is an Australian owned and family operated business with more than 40 years of combined experience.

We are committed to providing our customers with consistent, efficient reliable and personalized service, built on trust and always at competitive prices maximizing satisfaction to our customers.

We pride our reputation on integrity and responsibility, while vowing to deliver excellent service and finding solutions to suit your asset management and transportation needs.

SRK Transport will provide a fast, flexible, dependable and personalized service.

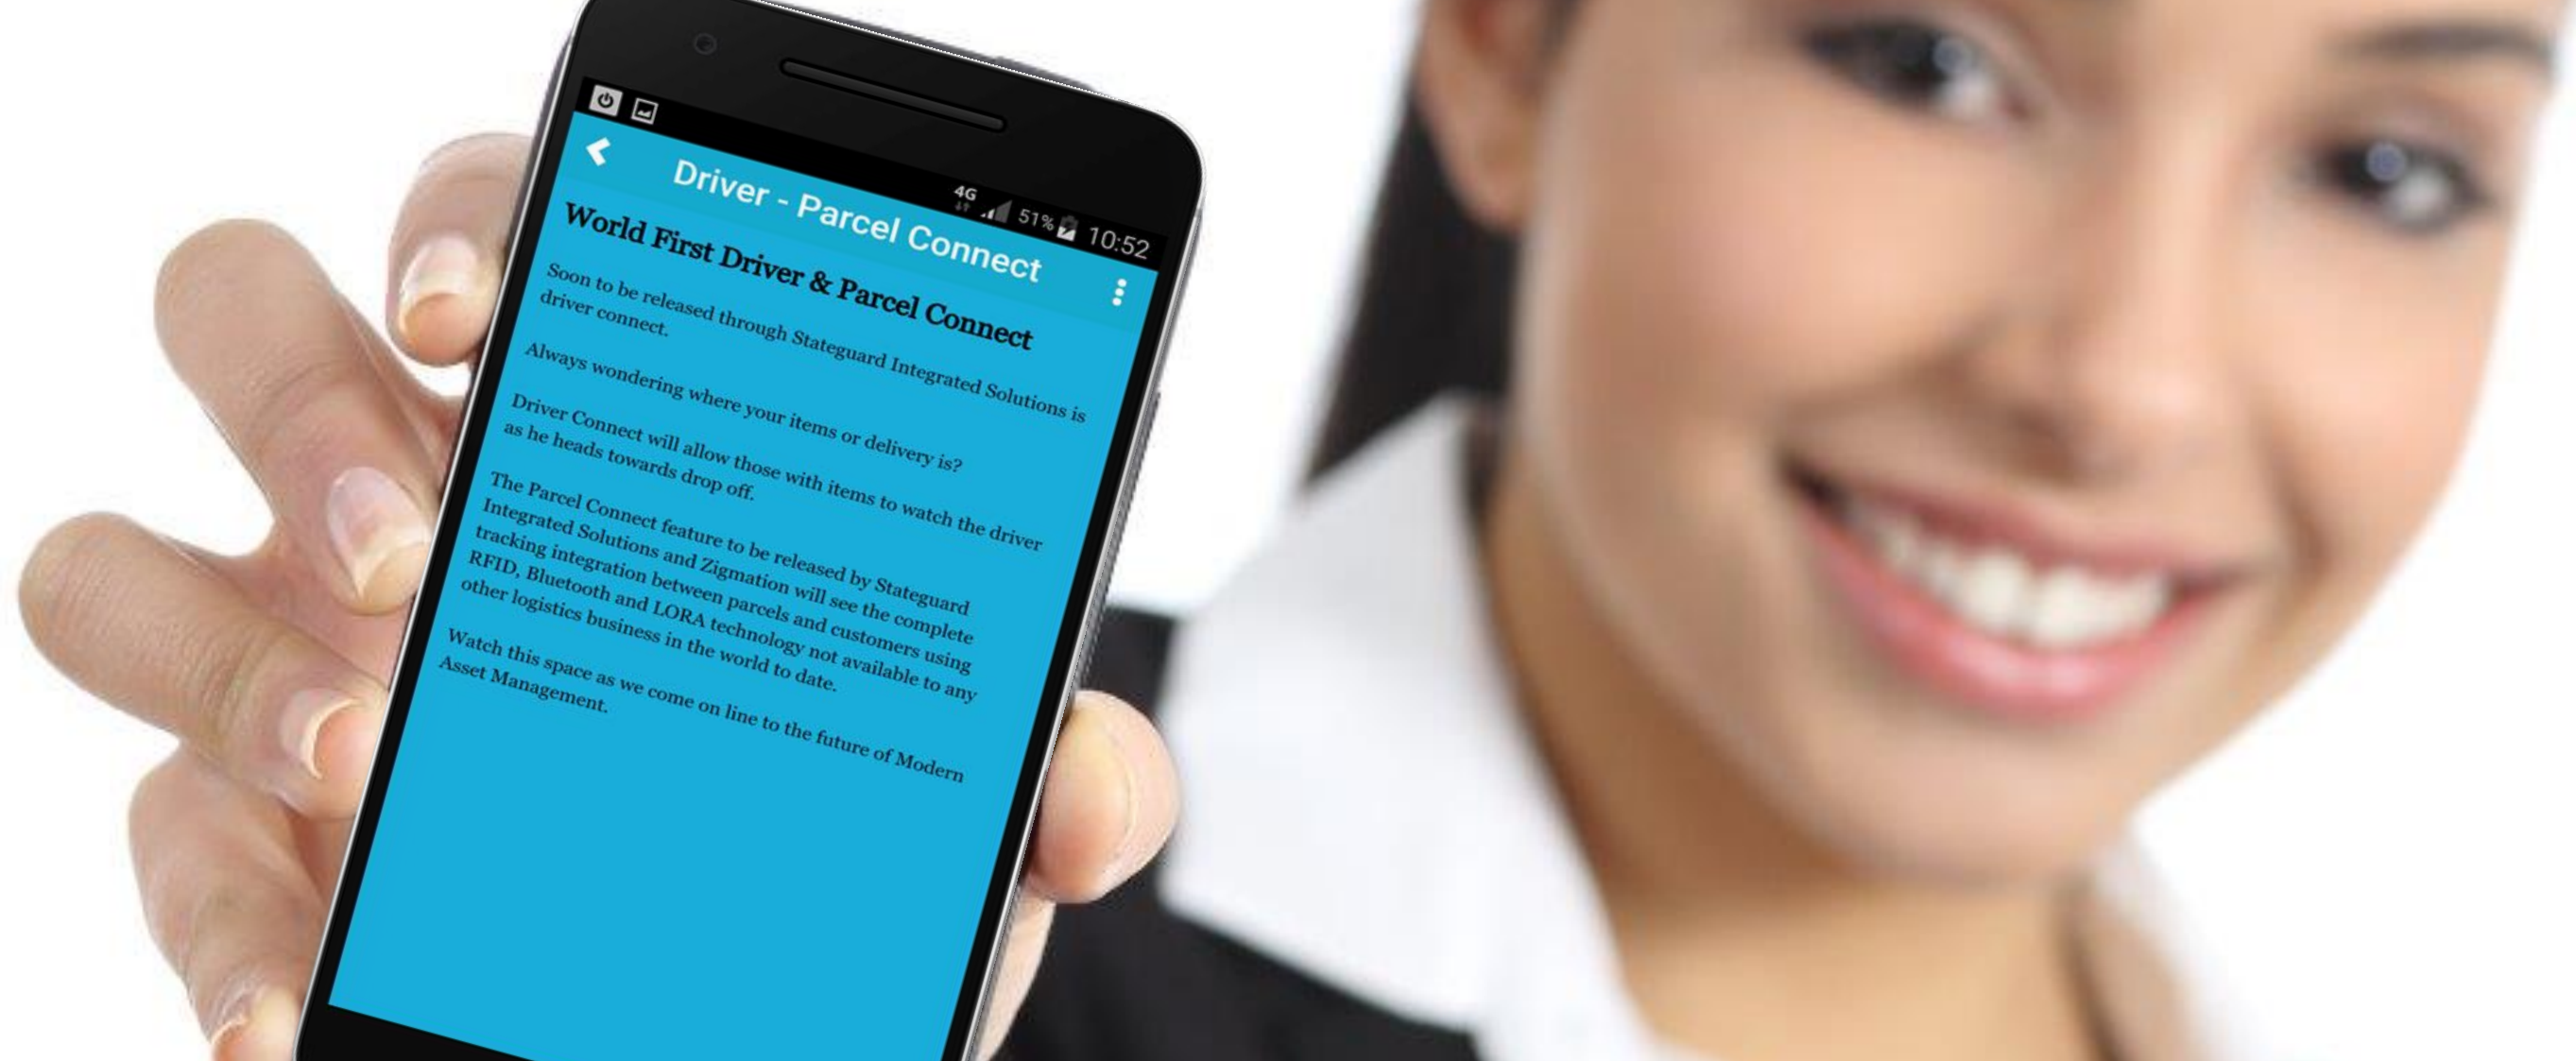

We believe in bringing simplified transport solutions to our clients.

To achieve this, we are dedicated to making the journey with us both enjoyable and enriching to the work life of your entire organisation.

These guiding principles shape our vision to be the easiest supply chain partner to work with, and to provide you a fair and reasonable outcome from our solutions.

SRK has partnered with technology specialists in developing new logistical and transport management solutions to provide a world class management system.

Driver - Parcel Connect

World First Driver & Parcel Connect

Soon to be released through Stateguard Integrated Solutions is driver connect.

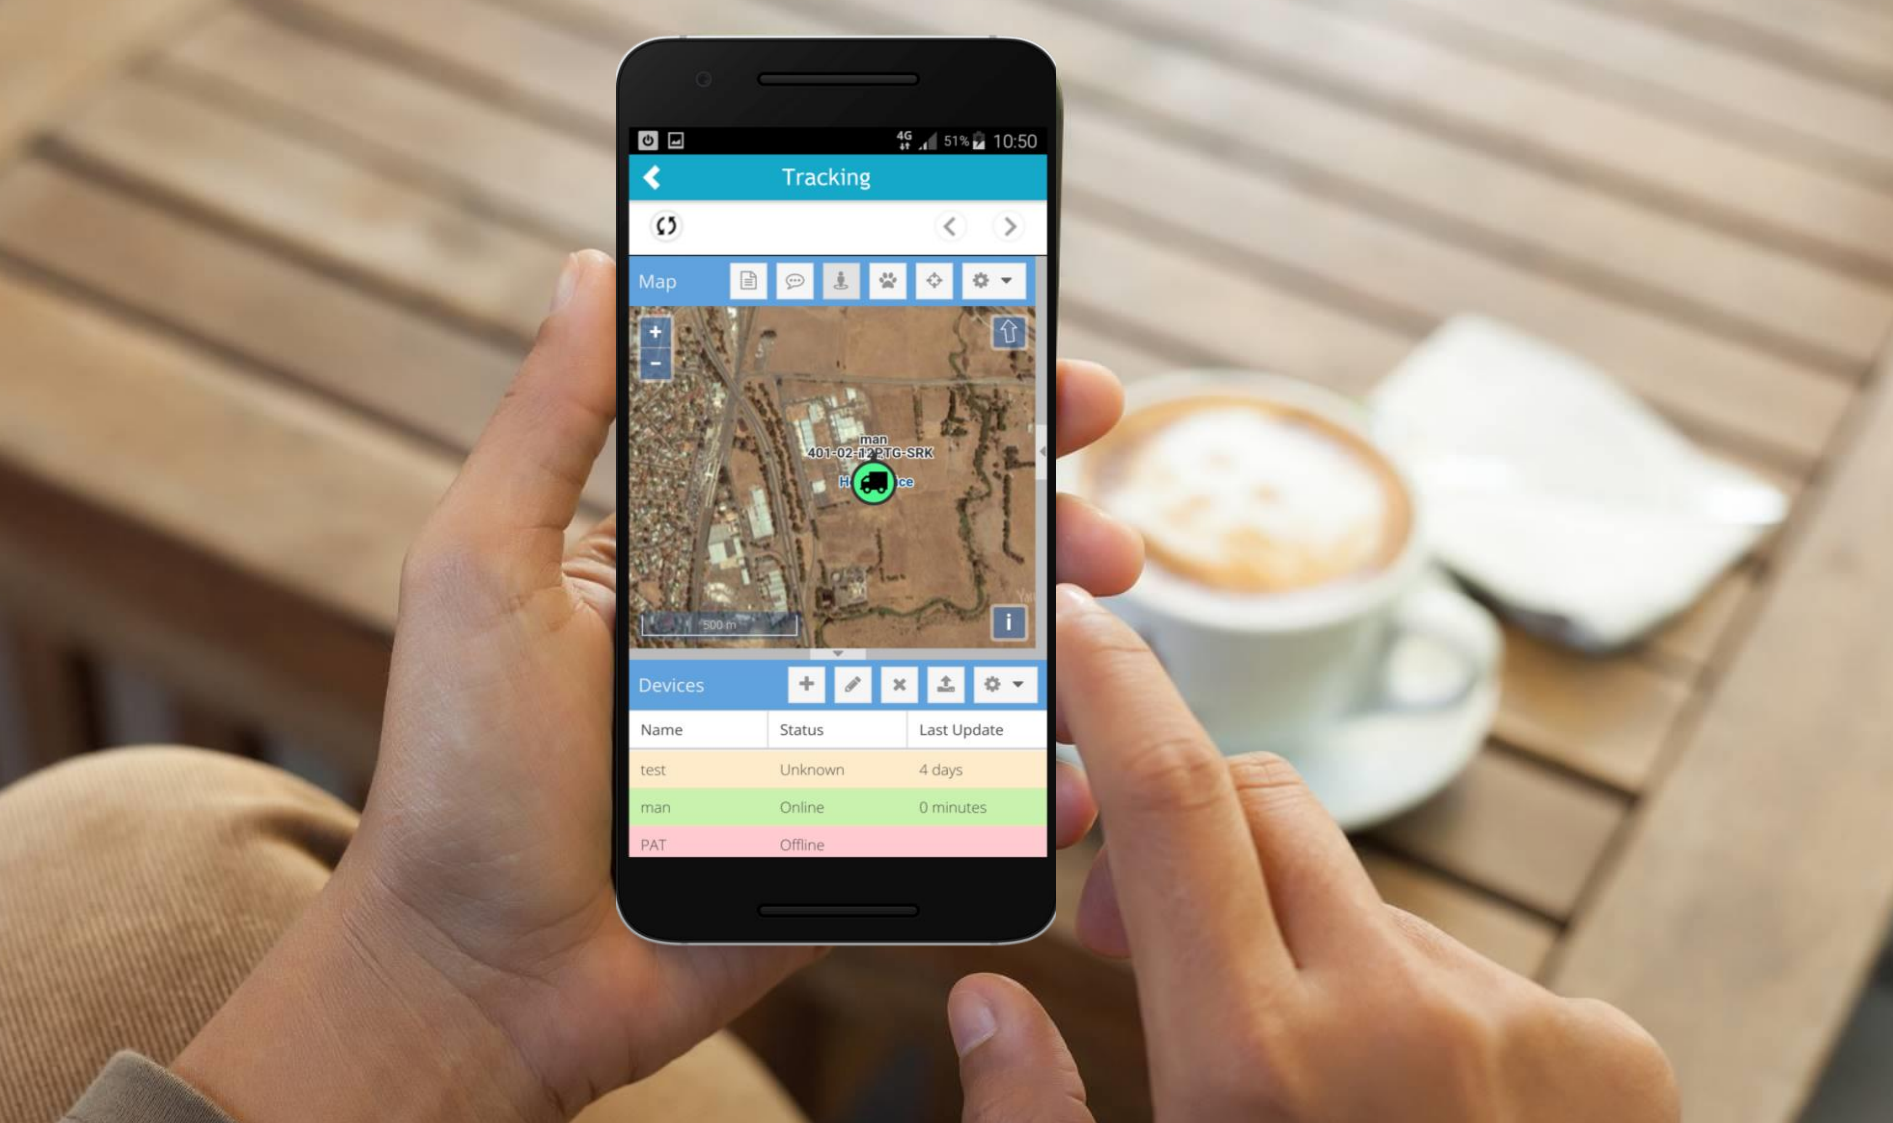

Always wondering where your items or delivery is? Driver Connect will allow those with items to watch the driver as he heads towards drop off.

The Parcel Connect feature to be released by Stateguard Integrated Solutions and Zigmation will see the complete tracking integration between parcels and customers using RFID, Bluetooth and LORA technology not available to any other logistics business in the world to date.

Watch this space as we come on line to the future of Modern Asset Management.

The implementation of RFID and Bluetooth technologies to create SRK Delivery Connect and SRK Parcel Connect to be released in 2018 will not only provide a direct connection between the driver and the client or service user, but a direct connection between the user and their items.

By implementing the latest GPS Development Project and the connectivity from the Control Room to more devices in the world than any other available programme.

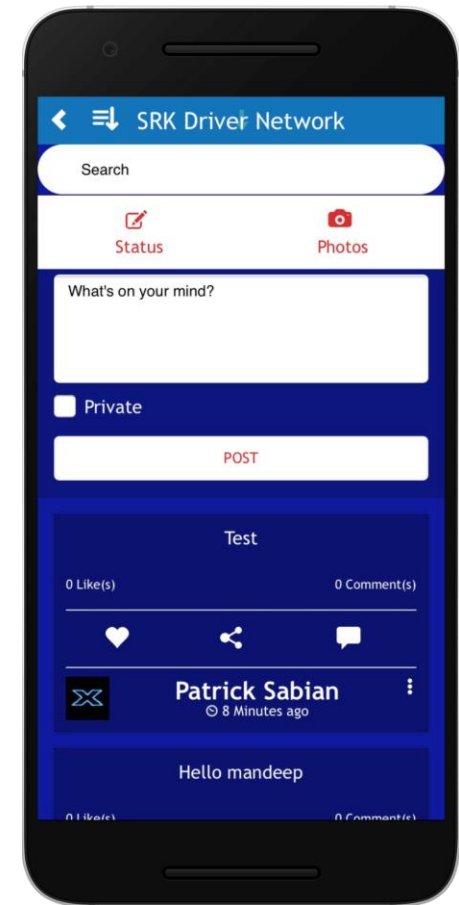

SRK Control can connect and manage more devices than any other programme available in the world through a single point.

With the SRK Transport APP and their new website at www.srktransport.com.au everyone can easily access the services of the company.

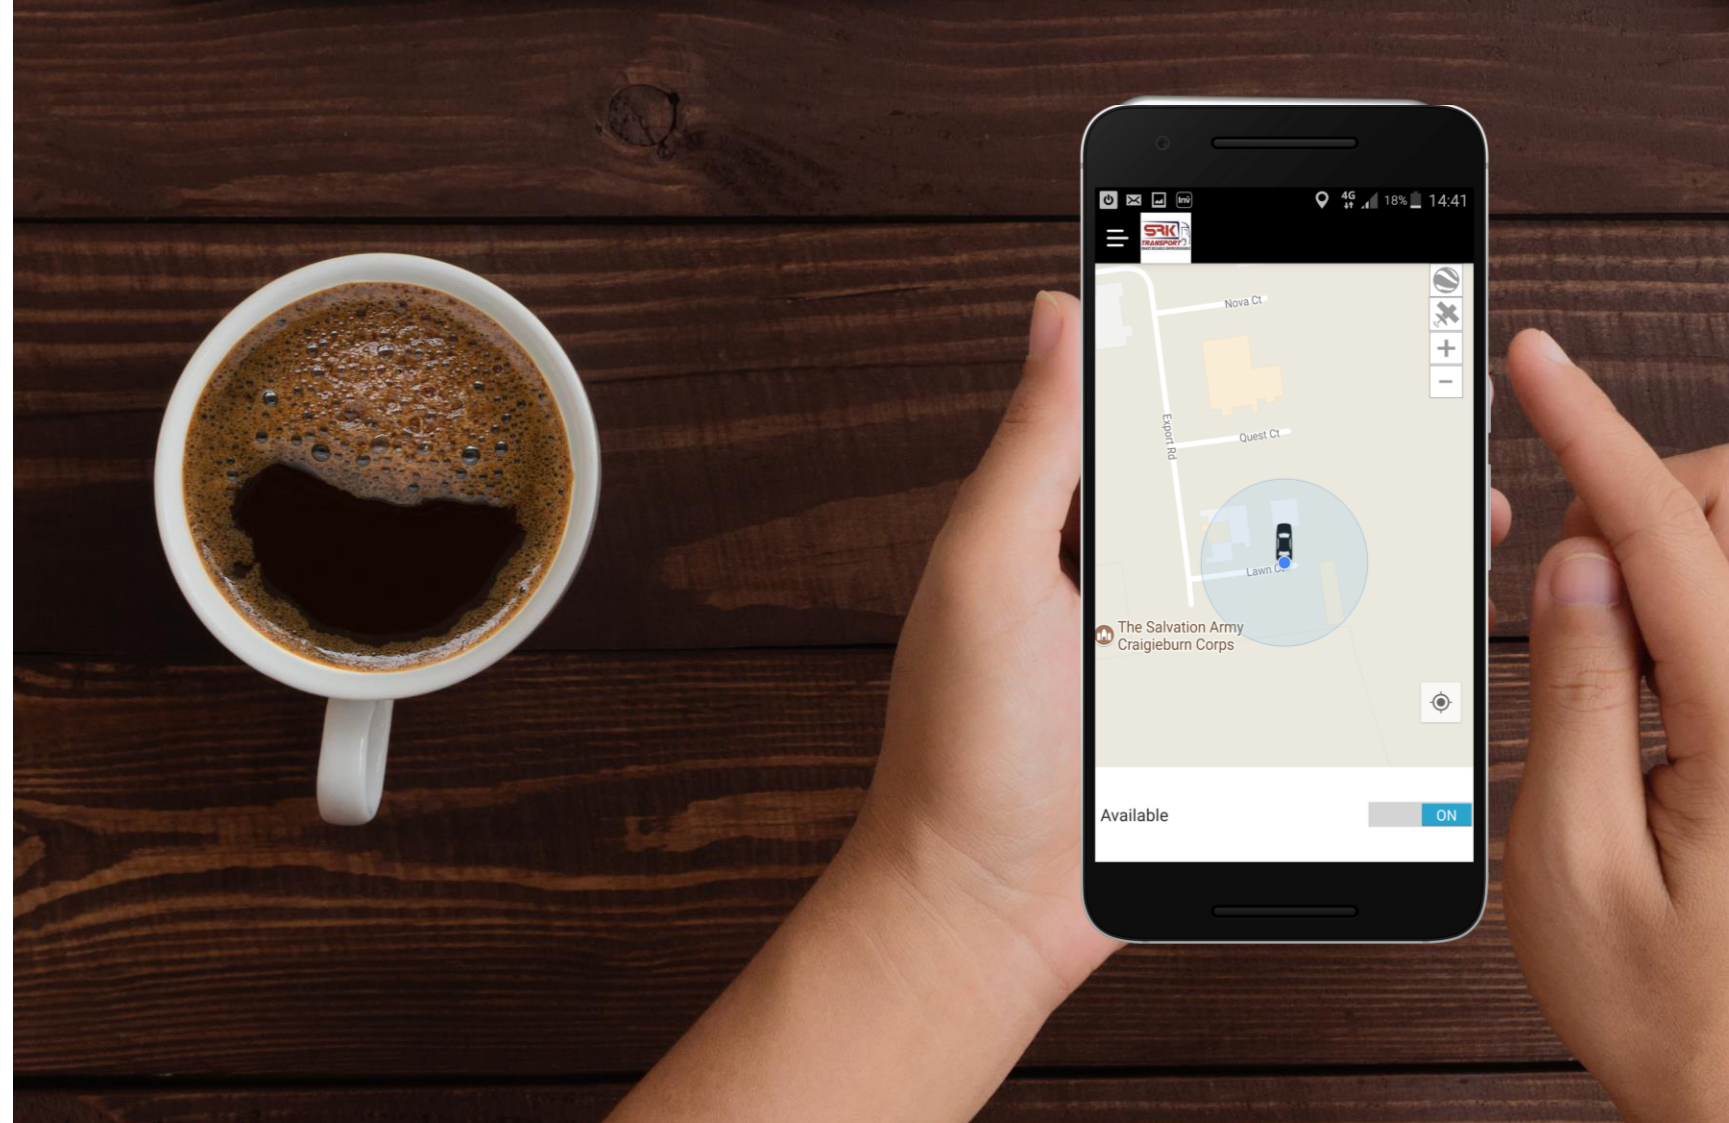

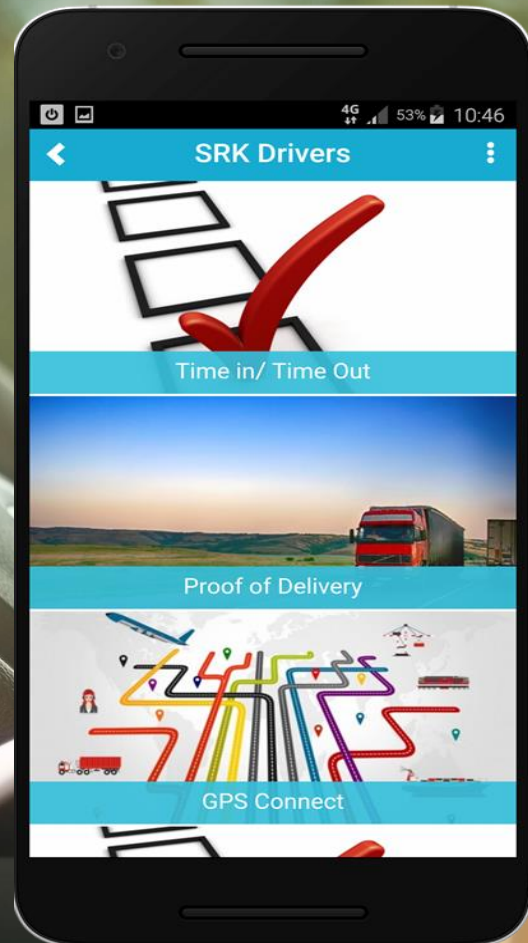

Drivers stay connected and SRK can send out communication directly to all drivers for important updates and broadcasting by sending one message to all. Receiving it live.

Allows clients of SRK Transport to have a direct and live connection where they can see all online deliveries via the APP.

Ask SRK for your Promo code and watch as your driver is connected like Uber style until your delivery arrives.

SRK Transport provides ease of access for drivers removing timesheets and Runsheets with one touch log on and log offs and Proof of Deliveries that connect directly to Drivers, SRK Transport and the Customer upon Delivery.

Don't stand by waiting for a confirmation or losing paperwork, its all on the APP

SRK Transport partnering with “Stateguard Integrated Solutions” and “Zigation” will make your transport and delivery service come to life using world first technology, coded, manufactured and developed in Australia built on block chain technology.

SRK Transport is your Smart Transport Solution and we invite you to take the journey with us.

Bring Transport to Life.
